LETTER FROM THE CHAIRMAN

The Hope Scholarship Program continues to evolve as more West Virginia families take advantage of the opportunity to choose an educational path that best meets the needs of their children. During the 2025–2026 school year, we saw continued growth in participation, along with strong feedback from families who value the flexibility the program provides.

As a father of six children, I know firsthand that every child learns differently. There is no single educational setting or approach that will work best for every student. That is why the Hope Scholarship is so important. It gives parents greater flexibility to tailor an individualized learning experience for their child, whether that means attending a private or parochial school, participating in a microschool, learning from home, or pursuing another form of individualized education.

Our focus during this past year has been on welcoming more students to the Hope Scholarship Program. Beginning with the 2026–2027 school year, eligibility expanded to include West Virginia students who previously may not have qualified, including existing private school and traditional homeschool students. The program had already received more than 25,000 approved applications for the 2026–2027 school year by late August, nearly doubling participation from the previous year.

As participation continues to increase, we remain committed to listening directly to the parents who use the program. Nearly 900 families responded to our 2025–2026 Parent Satisfaction Survey, with a majority reporting overall satisfaction with the Hope Scholarship Program, including its customer service, purchasing process, and communication about important updates and deadlines. Families identified a variety of reasons for choosing the Hope Scholarship, reinforcing that parents use this program in different ways based on what they believe will best serve their child.

That feedback is important because the continued success of the Hope Scholarship should not simply be measured by how many students participate. It should also be measured by whether we are giving families the tools, resources, and support they need to make meaningful educational choices.

For West Virginia to build a more prosperous future, education must remain a top priority. That means supporting innovation, listening to families, and recognizing that students can succeed in many different educational environments. Our responsibility is to keep students at the center of those decisions and ensure families have access to opportunities that can help their children thrive.

I want to thank the Hope Scholarship Board, our dedicated staff, participating schools and education providers, and most importantly, the thousands of West Virginia families who place their trust in this program. As the Hope Scholarship enters its next chapter, my team and I remain committed to improving the program, responsibly managing its continued growth, and helping every participating child pursue a bright future.

Sincerely,

Larry Pack

PROGRAM OVERVIEW

What is Hope Scholarship?

West Virginia's Hope Scholarship is an educational savings account program available to qualified kindergarten through 12th grade students in the state. It's designed to allow parents and guardians to use the state portion of their child's education funding to tailor a learning experience that works best for their child.

Who is eligible?

During the 2025-2026 school year, eligible Hope Scholarship applicants were required to be West Virginia residents and meet one of the following requirements:

- Enrolled full-time in a public elementary or secondary school program for the entire preceding academic year;
- Enrolled full-time and attended a public elementary or secondary school program in the state for at least 45 consecutive calendar days during an instructional term at the time of application. (The student must have remained enrolled and attending public school until a decision was reached on their application.); or
- Eligible to be enrolled in kindergarten for the 2025-2026 school year.

Eligibility Expansion

In accordance with state law, it was announced in July 2024 that eligibility would be expanded for the 2026-2027 school year. As a result, existing private school and traditional homeschool students who were not previously eligible for the program are eligible to apply in the 2026-2027 school year. Read more about this announcement on page 5. Note that all future eligibility requirements are subject to changes to state law, legislative rules and governing board policies.

How do students apply?

Applications and program information are available online at www.hopescholarshipwv.gov. The Hope Scholarship Program accepts applications year-round with the scholarship award amount based on the quarterly application window detailed on the website.

How is the Hope Scholarship distributed?

During the 2025-2026 school year, Hope Scholarship families had access to an online portal account for each eligible student. Funds were loaded to the student's account twice a year (August 15 and January 15). For students who were awarded a prorated amount of Hope Scholarship funds after one of the two primary funding dates, the Board deposited the prorated funds as soon as feasible. Please note that for the 2026-2027 school year, the distribution periods have been change to quarterly distributions instead of twice a year.

■ How is Hope Scholarship money spent? ■

Families spend their Hope Scholarship money directly through the Hope Scholarship online portal with participating schools, education service providers, and vendors for qualifying educational expenses. Below is a list of some common qualified expense. (The full list can be found in the [Parent Handbook](#) online.)

- Tuition and fees for private school, non-public online programs, or alternative education programs
- Services provided by a public school (extracurricular, individual courses)
- Tutoring services
- Fees for standardized or advanced placement exams
- Fees for preparation courses
- Educational services and therapies
- Supplemental materials (supplies, textbooks)
- Fees for after-school or summer education programs
- Any other qualifying expense as approved by the Board

The Board has also published a list of non-qualifying/unallowable expenses that can be found [online](#). Hope Scholarship funds are not sent to the parents. Reimbursements for payments made out-of-pocket with non-Hope Scholarship funds are only considered in limited circumstances as defined in the Hope Scholarship Reimbursement Policy.

■ What happens to unspent scholarship money? ■

Remaining Hope Scholarship funds rollover into the new school year as long as a student remains eligible for the program and submits the required Continued Participation Confirmation by the appropriate deadline. If a student does not participate in the program the following year, unused funds are returned to the state.

2025-2026 IMPACT SUMMARY

14,486

Total Scholarships Awarded

Hope Scholarship Impact

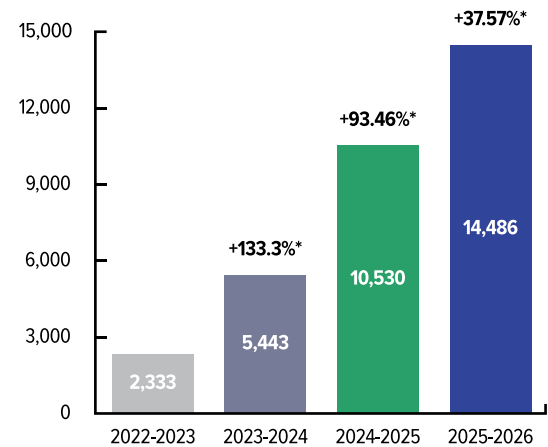

The Hope Scholarship grew from 2,333 students during its first year to more than 14,400 participants for the 2025-2026 school year, the program's fourth year.

1,640	Ineligible
2,395	Expired*

*Applications marked as Expired were initially awarded but the student subsequently decided not to participate in the program at some point during the 2025-2026 school year.

Annual Scholarships Awarded

The Hope Scholarship Program had significant year-over-year growth. Program participation grew from 10,530 students in 2024-2025 to 14,486 students in 2025-2026.

*Indicates percentage increase from previous school year.

Annual Scholarship Amount

The Hope Scholarship award amount varies each school year depending on the amount of state aid funding per pupil provided to county boards of education for public school students. The scholarship amount for the 2025-2026 school year per pupil was set at \$5,267.38. The chart shows how that number has changed (based on the state aid funding formula) over the life of the scholarship program.

School Year	Award Amount
2025-2026	\$5,267.38
2024-2025	\$4,921.39
2023-2024	\$4,488.82
2022-2023	\$4,298.60

2025-2026 IMPACT SUMMARY

■ Hope Scholarship Eligibility Expansion ■

While the 2025-2026 academic year saw limited eligibility for West Virginia students, state law allowed for eligibility to be expanded to all West Virginia children during the 2026-2027 school year. In March 2026, State Treasurer Larry Pack announced that applications were open for all West Virginia children in grades K-12 for the Hope Scholarship Program for the 2026-2027 academic year.

That means existing private school and traditional homeschool students who were not previously eligible for the program are eligible to apply for Hope Scholarship, which provides funding to students exercising school choice in lieu of attending public school full-time.

"What a great day to welcome thousands of new families to the Hope Scholarship Program. Our goal has always been to continue to lead the nation in educational freedom and innovation. Today is another step to providing more options to parents that best suits their child's unique needs," Treasurer Pack said. "We want to thank everyone who has worked tirelessly to get to this point. This was a team effort that will have a positive impact on thousands of kids in West Virginia for years to come."

Program participation grew from 2,333 students during the first year of the program in 2022-2023 to over 14,400 current participants for the 2025-2026 school year. There are currently over 300 participating nonpublic schools and microschools as well as over 1,300 non-school providers in the Hope Scholarship Program, providing a variety of educational options for students.

Families are reminded to notify the Hope Scholarship Board via email at hopescholarshipwv@wvsto.gov if they are awarded the Hope Scholarship but ultimately decide to remain in public school.

■ Recipient Testimonial ■

"The Hope Scholarship has given our family the **ability to make education fit our child**, rather than trying to make our child fit into one specific educational model. As a homeschooling family, having the flexibility to choose curriculum and educational resources based on her individual strengths and areas where she needs additional support, **has been incredibly valuable.**"

RECIPIENT DEMOGRAPHICS

Recipients (by Educational Pathway)

With Hope Scholarship, West Virginia students have the opportunity to choose their learning environment. For some students, that means enrolling in a private school or a nonpublic school. For others, it means customizing their educational experience at home or another location, such as a microschool, through an Individualized Instructional Plan (IIP). The accompanying chart is a breakdown of the educational pathways for the 2025-2026 Hope Scholarship students as identified on the Notice of Intent (NOI) sent to the student's local county board of education.

• ACADEMIC PROGRESS •

All Hope Scholarship students are required to annually file satisfactory academic progress data with their local county board of education. For students attending a participating school, the nonpublic school submits a list of all Hope students attending their school to the county board of education. Individualized Instructional Plan (IIP) students may submit a certified teacher portfolio review or nationally normed academic achievement test results. Failure to submit satisfactory academic progress data results in the closure of the student's Hope Scholarship account and the student is ineligible to participate in the subsequent school year.

FINANCIAL SUMMARY

West Virginia's Hope Scholarship is one of the nation's most flexible programs of its kind. It allows families to spend scholarship money through a secure online portal on everything from school tuition to online curriculum to educational fees and supplies. Unspent balances in student accounts at the end of the academic year carry over into the following year. If a student does not participate in the Hope Scholarship Program the following year for any reason, the funds are returned to the state. Reimbursements for payments made out-of-pocket are considered in limited circumstances as defined in the Hope Scholarship Reimbursement Policy and are the only instance where Hope Scholarship funds are shared with parents.

2025-2026 Student Account Spending

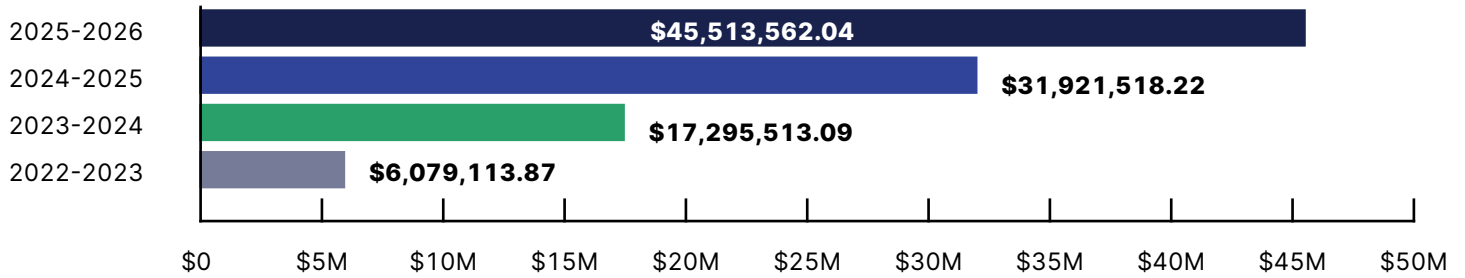

Unspent Balance in Student Accounts 2024-2025	\$7,984,087.17

PAYMENT HIGHLIGHTS

As Hope Scholarship recipients choose a learning path that best fits their needs, nonpublic schools and microschools are popular options. There are currently more than 300 participating nonpublic schools and microschools. All nonpublic schools and microschools operate independently from the public school system. Nonpublic schools are private or religious schools that are funded primarily through tuition charges to students. Microschools are small, flexible learning environments initiated by a teacher or entity that charges tuition to students who enroll. Below are the top 10 lists of nonpublic schools and microschools receiving Hope Scholarship funds in the 2025-2026 academic year.

PAYMENT HIGHLIGHTS

Hope Scholarship students who choose an Individualized Instructional Plan (IIP) may use Hope Scholarship participating Education Service Providers (ESPs) for direct educational services, such as tutoring or educational therapies. ESPs must register to participate in the Hope Scholarship program and receive scholarship payments through the program's online portal. There are more than 1,300 non-school education services providers in the Hope Scholarship Program, providing a variety of educational options for students. Below are the top 10 Education Service Providers by amount paid and the total ESP payments by category.

THEOPAY HIGHLIGHTS

The Hope Scholarship Program is unique among the various state Education Savings Account (ESA) Programs. West Virginia is currently the only state to utilize an open marketplace purchasing model, coupled with pre-adjudicated preliminary eligibility determinations, for families to purchase educational goods and commodities, which provides maximum flexibility and creativity for program participants. Other ESA programs offer a closed marketplace experience where participants shop from a pre-approved list of items offered at a set price by a pre-approved list of suppliers. In contrast, the Hope Scholarship Program's open marketplace is facilitated through Student First Technologies' TheoPay application, which allows Hope Scholarship account holders to place order requests for goods and commodities directly from TheoPay enabled vendor websites using a special browser extension. Although not all items offered for sale on a TheoPay enabled website are qualifying expenses under the Hope Scholarship Program, participants are not limited to only selecting pre-approved items for purchase, enabling them to request items to meet their student's unique educational needs. TheoPay uses a proprietary machine-learning model, trained on the program-specific rules, to conduct an initial automated eligibility review of the items placed in the account holder's shopping cart. Items flagged as potentially unallowable can be removed by the account holder or submitted for manual justification and review. All TheoPay order submissions are manually reviewed by a member of the Student First Technologies fulfillment team who confirms the eligibility of each item requested. The fulfillment team member then places the order on the vendor's website and ships the item directly to the student's home. Unallowable or out-of-stock items are not ordered. Additionally, account holders are contacted if there has been a significant price increase between the time the order request was submitted and the time the order was being fulfilled to confirm that they still wish to order the item with their scholarship funds. Below are the top 10 TheoPay Vendors receiving payments during the 2025-2026 school year, based on the total amount of spending with each vendor. A chart summarizing TheoPay purchases by category of expense is displayed on the subsequent page.

REIMBURSEMENT SUMMARY

All purchases made by Hope Scholarship families should be made directly using the Hope Scholarship online portal. Hope Scholarship funds are not sent directly to parents. However, the Board has authorized expense reimbursements for limited or specialized out-of-pocket expenses under the Board's [Reimbursement Policy](#). All reimbursement requests submitted in the Hope Scholarship online portal must be submitted within 90 days of purchase and include both a detailed invoice that clearly indicates the items that were purchased and proof of payment, such as a zero-balance receipt.

Parent from Greenbrier County

PAYMENT DISTRIBUTIONS

The majority of Hope Scholarship payments are distributed to schools and education service providers located in West Virginia. However, to give West Virginia families the opportunity to secure educational services and tools that best accommodate the needs of their students, the Hope Scholarship Act does not require participating schools or education service providers to be physically located in West Virginia. Nonpublic schools, virtual schools, or online service providers might be based out-of-state and registered to provide services to West Virginia students. Data with spending by state is provided below, with additional spending details by school and service provider available in the Appendix.
